How English Beauties Peel Their Faces

(From Society World.)

While abroad recently I could no help observing that the average Eng lishwoman's complexity While abroad recently I could not help observing that the average Egglishwoman's complexion is far more beautiful than that of the average woman of our country." says Mrs. Scott, secretary of the National Health-Culture Society. "Making Inquiries, several Intimate friends in London confided to me that they regularly used on their faces what is commercially known as mercelized wax. I do not know whether the habit is general there, but I do know that this wax has wonderful rejuvenating properties. I've tried it myself.

"If you will get an ounce of this mercolized wax at your drug store and apply it like cold cream, you will soon behold in your glowing checks their first resemblance to the remarkable transparent beauty of the Englishwoman's complexion. This wax gradually peels our the lifeless searf skin in tiny, almost imperceptible flakes, revealing the fresh, new skin underneath, pinky white, with the bloom of youth and health."
